---

---

---

---

---

---

---

---

**Purpose**

To discuss common issues that arose from the BHICA results.

To address these issues using TTA goals from quarterly and any additional new goals.

---

---

---

---

---

---

---

---

**Description of the Behavioral Health Integration Capacity Assessment (BHICA)**

Evaluates behavioral health organizations in their ability to implement fully integrated care

Examines each of three potential approaches: coordinated care, co-locate, build capacity in-house

Inform Training and Technical Assistance (TTA) goals

---

---

---

---

---

---

---

---

---

---

### Section 2.1: Capacity to Collect Data, Exchange Information and Monitor Population Health

The **highest** and **lowest** percent of green responses:

---

---

---

---

---

---

---

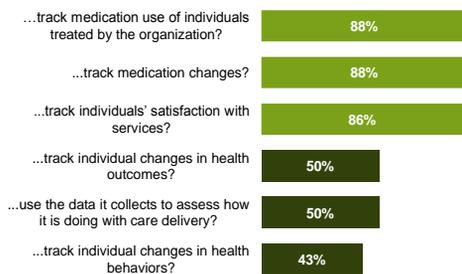

---

---

---

### Section 2.2: Progress and Outcome Tracking

The **highest** and **lowest** percent of green responses:

---

---

---

---

---

---

---

---

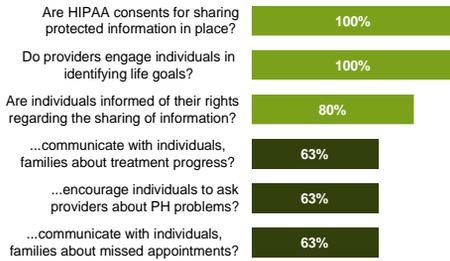

---

---

**Section 2.3 & 2.4: Communication and Connection with Community Resources**

The highest and lowest percent of green responses:

---

---

---

---

---

---

---

---

---

---

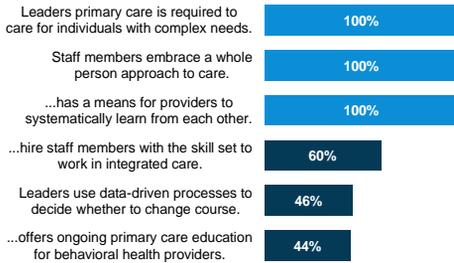

---

---

**Section 2.5: Leadership and Staff Engagement**

The highest and lowest percent of agree/strongly agree responses:

---

---

---

---

---

---

---

---

---

---

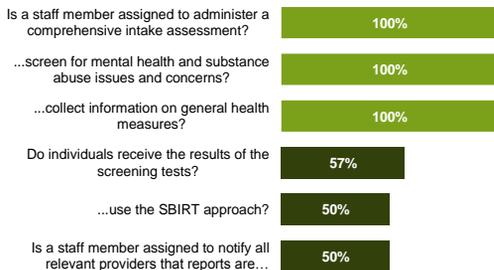

---

---

**Section 3: Screening and Identification of Population**

The highest and lowest percent of green responses:

---

---

---

---

---

---

---

---

---

---

---

---

**Section 4.1: Care Coordination**

The **highest** and **lowest** percent of green responses:

...have an informed consent process?	100%
...refer individuals to primary care providers?	89%
...provide info about which providers accept Medicare, Medicaid, or uninsured individuals?	89%
...track referrals made for individuals without a primary care provider?	33%
...track time between referral and initiation of treatment?	33%
...consistently track progress related to an medical needs?	33%

---

---

---

---

---

---

---

---

---

---

**Section 4.2 & 4.3: Co-location and In-House Primary Care**

The **highest** and **lowest** percent of green responses:

Do providers communicate about diagnoses with each other?	100%
...assist individuals in managing medical conditions, psychosocial problems more effectively?	100%
...measure height and weight?	100%
Are individuals' treatment plans for BH and PC available to all providers on the team?	40%
Do BH and PC providers contribute to a shared care and treatment plan?	40%
Is there central coordination of scheduling between BH and PC?	20%

---

---

---

---

---

---

---

---

---

---

**Section 5: Financing Integration**

The **highest** and **lowest** percent of green responses:

Are the direct, indirect costs of the integrated care program known, tracked?	100%
...participate in non-billable activities?	100%
...identify a funding stream for each integration-related billable activity?	100%
...collect use of acute care services to show health care costs?	64%
...engaged with payers in related demonstrations?	43%
...have a relationship with a health system that is participating in an ACO?	38%

**Meet as a Team.....**

What resonated with you?

What ideas do you hope to implement?

Which other organizations are doing something that you want to replicate?

Did the conversation inspire you to add a new TTA goal?
