

Minority AIDS Initiative- Continuum of Care *Data Resources and Activities*

Kirk James, Medical Officer

Sarah Ndiangu, Public Health Advisor

Mark Jacobsen, Public Health Analyst

Ilze Ruditis, Senior Program Manager

MAI-CoC Data Resources

- The www.integration.samhsa.gov/mai-coc Data Resources webpage continues as a consolidated posting for MAI-CoC data requirements. New information will be posted and/or linked.
- <http://www.integration.samhsa.gov/mai-coc-grantees-online-community/mai-coc-data-resources>

LINK: MAI-CoC Data Resources

TEXT BELOW FROM <http://www.integration.samhsa.gov/mai-coc-grantees-online-community/mai-coc-data-resources>

- **Rapid HIV and Hepatitis Testing (RHHT):**
- **RHHT form (PDF read-only format) – SAMHSA Rapid Testing HIV and Hepatitis Testing Clinical Information Form**
- **This document is a copy of the OMB approved SAMHSA Rapid Testing HIV and Hepatitis Testing Clinical Information Form. All grantees are required to offer HIV and hepatitis testing to all of their clients and family members or significant others who may be at risk for HIV or viral hepatitis. Note: The client ID number used in this RHHT form for a particular client receiving behavioral health services should be the same client ID number that is used for the same individual in the Data Collection Instrument (DCI); see below. *No changes have been made since prior dissemination.***
- **RHHT Question by Question (QXQ) Instruction Guide, version 2, Feb 24 2015 – QXQ Guide for RHHT This resource is aimed to provide supplemental information for how providers should address each question on the RHHT form. *No changes have been made since prior dissemination.***
- **Webinar on RHHT form (with audio) - This resource is a recording of a webinar given to assist grantees with completing and submitting the RHHT form. The information provided is consistent with the information in the QXQ guide. *No changes have been made since prior dissemination.***

RHHT Data and Securemailbox

- Data should continue to be collected *with a matching ID* for those clients entering *client level services*.
- RHHT should be collected for *all clients*.
- The Rapid HIV and Hepatitis Testing Clinical Information Form should be submitted to the MAI-CoC dedicated secure email box as follows:

FY14_CoC_BH_HIV@SAMHSA.HHS.GOV

RHHT DATA SYSTEM

- The RHHT data collection system is currently under development.
- All of the data submitted to the secure *electronic mailbox* will be uploaded into the RHHT system.
- Technical support for RHHT data entry / collection will be upcoming through Abt Associates.

Client Level Services Data

- The transition for the common data platform continues, and electronic data entry will be forthcoming.
- Paper format data collection continues, pending process for online data entry and reporting.

Data Resources: Client Level Data

TEXT BELOW FROM <http://www.integration.samhsa.gov/mai-coc-grantees-online-community/mai-coc-data-resources>

CMHS Client Level Services Data Collection Instrument (CMHS DCI)

- This tool is required to be completed for all clients who receive substance use disorder and mental health treatment under the MAI-CoC grant funding opportunity. Note: The client ID number used in the CMHS DCI for a particular client should be the same client ID number which is used for the same individual on the RHHT form. *No changes have been made since prior dissemination.*

CMHS CSAT CLS QXQ Reference Guide Version 1

- This is QXQ guide for the CMHS DCI, client level services. This resource is aimed to provide supplemental information for how providers should address each question on client level services. Note: MAI-CoC grantees should follow the guidance pertaining to CMHS, while both CMHS and CSAT are covered in the QXQ. *No changes have been made since prior dissemination.*

MAI-Continuum of Care (CoC) Program - Specific Questions – Section H

- This data is to be primarily gathered from the client medical record, for clients with HIV positive status. *This eight (8) question form is designated with OMB No. 0930-0346; Expiration Date: 12/31/17.*

CLIENT LEVEL - Legacy Tool

- **As posted above, the DCI, is the ‘legacy tool’ to continue for MAI-CoC data collection, with the ‘section H’ for medical data for clients with HIV.**

Infrastructure, Health Promotion and Prevention (IPP)

- **IPP Data include (to be added to Data Resources webpage)**
 - # individuals screened for behavioral health
 - # trained in workforce
- **# receiving a *prevention intervention* will be added. It will be # served, *aggregated quarterly*.**

Annual Report - October 30

- ***The reporting format will be similar to the *project narrative in the continuation application, as a word or pdf file.***
- **It will cover the *first year* of the project (may build upon continuation already submitted).**

QUESTIONS?

....TYPE in your questions!

AND THANKYOU!
