

# Union Square Health Home

Union Square Health Home is a more convenient way of getting all your care in one place, with an integrated care team who knows you. Whether you need primary health care or behavioral health care, our compassionate, dedicated staff are here to help you.

## By participating in the Union Square Health Home, you can expect to:

- ✓ Improve your health conditions
- ✓ Have a supportive care team working with each other on your behalf
- ✓ Receive individualized attention for your specific needs
- ✓ Have access to free wellness classes and health coaching
- ✓ Feel more knowledgeable about your health conditions and how to manage them
- ✓ Be better able to take charge of your health and your life
- ✓ FEEL BETTER!!

## Your Appointments

If you've been here before or are a new client, your visit may be a bit different. Your appointment may take 45 minutes to an hour.

After completing health questionnaires, your Care Coordinator will meet with you to explain the Health Home services, complete your vitals and take your basic health history. Next, your Coordinator will review your appointments with your providers to determine your next steps. We also offer substance abuse services if you need them.
