

SAMHSA-HRSA Center for Integrated Health Solutions

Cohort V Data Jam #1

Jeff Capobianco, CIHS
Aaron Surma, CIHS

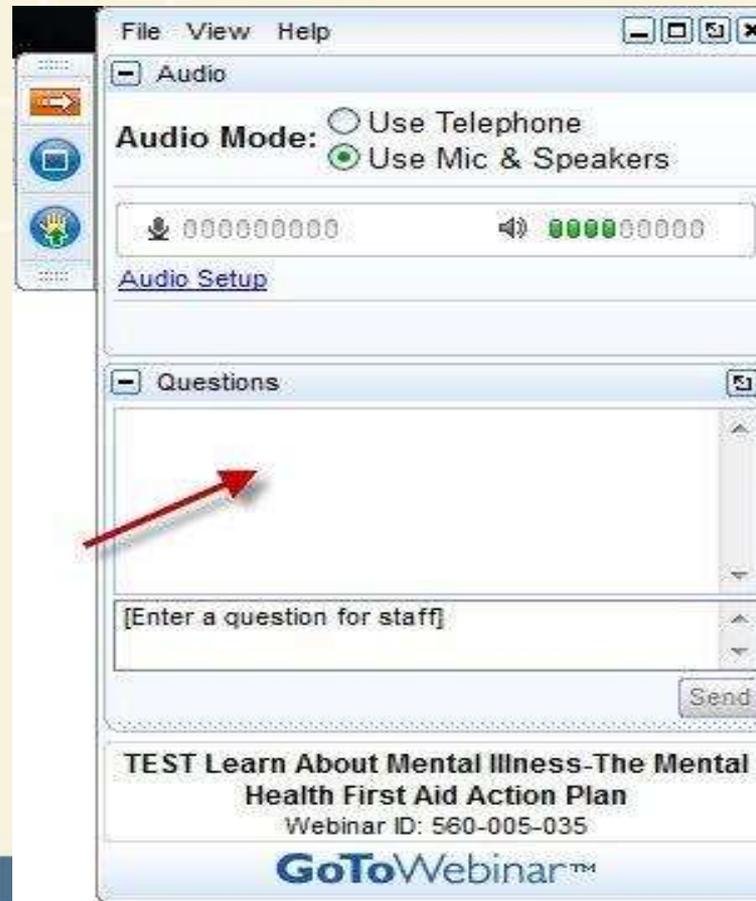

Agenda

- Poll Questions
- Frequently Asked Questions
 - Baseline Interview
 - H Indicators
 - Reassessments
 - Other
- Open Q&A

How to participate

Poll Questions

BASELINE INTERVIEW FAQ

Who can do a NOMs interview?

Any staff member is eligible to conduct a NOMs interview.

What is the consumer's 'enrollment date'?

The date of the NOMs interview. This is the 'baseline date'. All subsequent due dates are based off of this date.

How long are we required to keep people enrolled in our integrated health program?

There are no requirements for how long someone is enrolled in your integrated health program.

What are the enrollment requirements?

- On target = enrolled at least 100% of your enrollment target
- Below target = 70%-99%
- Eligible for administrative review = less than 70%

H INDICATOR FAQ

What are the H Indicators?

Mechanical Indicators

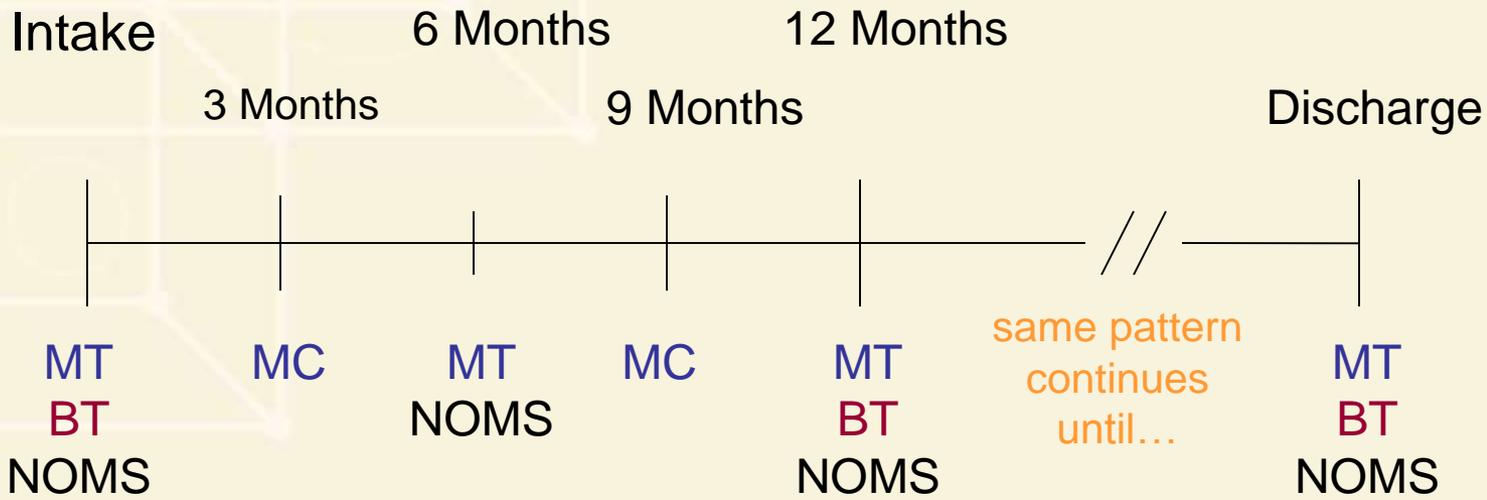

- Height
- Weight
- BMI
- Waist Circumference
- Blood Pressure
- Breath CO₂

Blood Work

- Fasting Glucose OR HbA1c
- Triglycerides
- HDL Cholesterol
- LDL Cholesterol

How often do we collect H Indicators?

MC = Mechanical indicators: Collect and store in medical records
MT = Mechanical indicators: collect, store in medical records, and enter in TRAC
BT = Blood work: collect, store in medical records, and enter in TRAC
NOMS = NOMS survey, enter in TRAC

Do we have to collect HbA1c and fasting glucose?

No. You only need to collect one. HbA1c is considered more reliable, but either is acceptable for the PBHCI grant.

What if the consumer didn't fast for a fasting glucose lab?

Collect the reading and note in TRAC that it was a non-fasting glucose reading. There is a checkbox when entering the data.

What is the window for collecting mechanical indicators?

30 days +/- the due date.

What is the window for collecting blood work?

60 days +/- the due date.

What are the collection requirements for H Indicators?

- On target = collected and recorded H Indicator data for 80%-100% of enrolled consumers
- Below target = 50%-79%
- Eligible for administrative review = less than 50%

How do I indicate missing H Indicator Data in TRAC?

Select either 'refused' or 'missing', depending on the situation.

Can we use grant funds to pay for blood work?

Yes.

What happens if we miss collecting a lab for a consumer within the window?

Collect the lab as soon as you can and record it in TRAC.

REASSESSMENT FAQ

What are the reassessment requirements?

- On target = reassessed 80%-100% of enrolled consumers
- Below target = 50%-79%
- Eligible for administrative review = less than 50%

What is the window for reassessment?

30 days +/- the reassessment due date

How do I know if someone is due for reassessment?

TRAC has a report called “Services Notification Report” that lists all consumers who are due for reassessment.

What if we can't find a consumer and they are due for reassessment?

Your agency should have a policy for administratively discharging consumers from your integrated health program.

One example is administratively discharging enrolled consumers after 3 months without contact with the consumer. Administrative discharges must be entered into TRAC.

OTHER DATA FAQ

Do we have to participate in the RAND study?

No! (breathe a sigh of relief)

Who can answer my PBHCI data questions?

- CIHS! In particular, Aaron Surma (AaronS@thenationalcouncil.org) and Jeff Capobianco (JeffC@thenationalcouncil.org).
- You can also ask your liaison and they will route your question to us.
- We also have an archive of data-related webinars on our website. (www.integration.samhsa.gov)

Who can answer my TRAC questions?

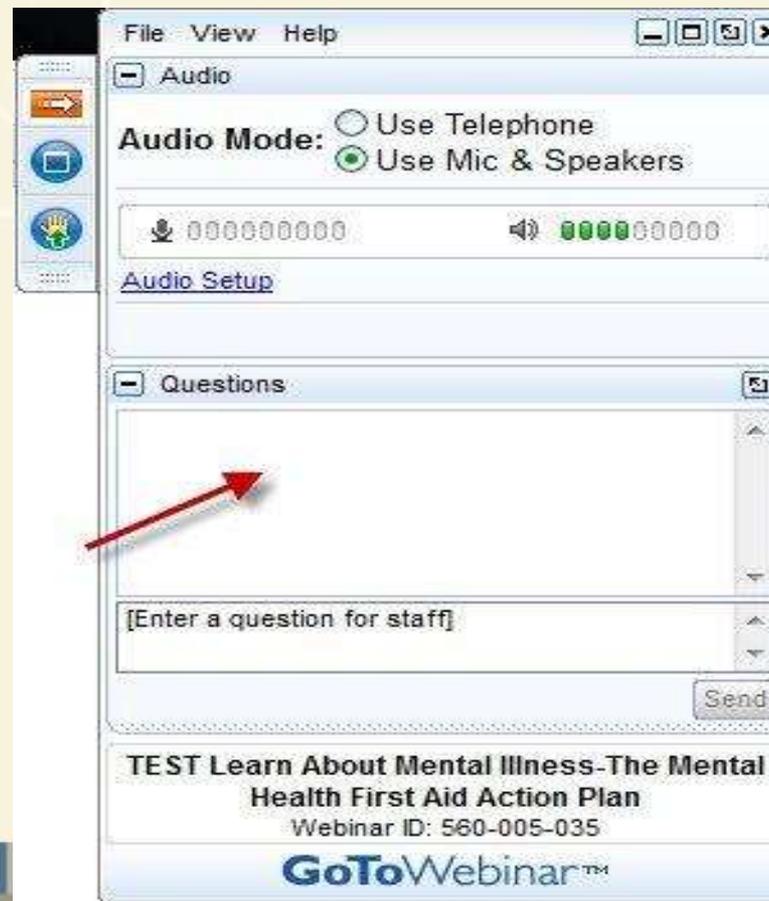

- The TRAC helpdesk can help you (trachelp@westat.com)
- TRAC also has excellent resources on their website. In TRAC, click 'General Info & Training'. There are videos in 'Services and Training' and guidance documents in 'Program Specific Guidance'.

OPEN Q&A

How to participate

Thank You!

Remember, you can always contact us at:

Aaron Surma (AaronS@thenationalcouncil.org)

Jeff Capobianco (JeffC@thenationalcouncil.org)

Please complete the survey when you close the webinar.
It will help us plan the next data jam.
