Dedicated to promoting the development of integrated primary and behavioral health services to better address the needs of individuals with mental health and substance use conditions, whether seen in specialty behavioral health or primary care provider settings.
About the Center

In partnership with Health & Human Services (HHS)/Substance Abuse and Mental Health Services Administration (SAMHSA), Health Resources and Services Administration (HRSA).

Goal:
To promote the planning, and development and of integration of primary and behavioral health care for those with serious mental illness and/or substance use disorders and physical health conditions, whether seen in specialty mental health or primary care safety net provider settings across the country.

Purpose:
- To serve as a national training and technical assistance center on the bidirectional integration of primary and behavioral health care and related workforce development
- To provide technical assistance to PBHCI grantees and entities funded through HRSA to address the health care needs of individuals with mental illnesses, substance use and co-occurring disorders
The Center for Integrated Health Solutions is dedicated to increasing the number of:

- Individuals trained in specific behavioral health related practices
- Organizations using integrated health care service delivery approaches
- Consumers credentialed to provide behavioral health related practices
- Model curriculums developed for bidirectional primary and behavioral health integrated practice
- Health providers trained in the concept of wellness and behavioral health recovery
Center for Integrated Health Solutions

Target Populations

- SAMHSA Primary & Behavioral Health Care Integration (PBHCI) Grantees
- HRSA Grantees
- General Public

Services

- Training and Technical Assistance
- Knowledge Development
- Prevention and Health Promotion/Wellness
- Workforce Development
- Patient Protection and Accountable Care Act Monitoring and Updates
Technical Assistance Menu

Individual Technical Assistance:
- Phone consultations, e-mail, site visits

Group Learning Experiences:
- Learning Communities
- Webinars
- Trainings
- Practical Web-Based Resources (CIHS website, e-newsletter, discussion boards)

Tools:
- Toolkits/Guidelines
- Training Curricula
- Fact Sheets

SAMHSA Primary and Behavioral Health Care Integration (PBHClI) Grant Program
PBHCI Program

Program purpose:
- To improve the physical health status of people with SMI by supporting communities to coordinate and integrate primary care services into publicly funded community-based behavioral health settings

Expected outcome:
- Grantees will enter into partnerships to develop or expand their offering of primary healthcare services for people with SMI, resulting in improved health status

Population of focus:
- Those with SMI served in the public behavioral health system

Eligible applicants:
- Community behavioral health agencies, in partnership with primary care providers
